I met with Cllr Andrew Leadbetter and Cllr John Hart, the Leader of Devon County Council, to discuss Devon Council's budget settlement. The Council made Â£174m in savings during 2010-15 and are looking at a further Â£110m of savings which are likely to be needed over the next 4 years, with up to Â£40m of this in the coming year 2016/17. You can help to influence Devon County Council's decisions about how future savings are made by telling them your priorities and how they affect your community. Over 3,600 people have visited their website and around 500 have completed a budget priorities survey or attended a consultation event. This review ends on the 29th January 2016.
