To ask the Secretary of State for Health, how many paediatric audiology services have registered for the Improving Quality in Physiological Services accreditation scheme to date.

To ask the Secretary of State for Health, how many paediatric audiology services have (a) been allocated a date and are awaiting an assessment visit by UKAS inspectors under the Improving Quality in Physiological Services accreditation scheme and (b) failed to gain accreditation after their initial assessment visit, since the accreditation began in 2012.

To ask the Secretary of State for Health, how many paediatric audiology services have reached the level required, using the Self-Assessment and Improvement Tool, to be eligible to apply for accreditation under the Improving Quality in Physiological Services scheme.

Alistair Burt The Minister of State, Department of Health

As of July 2016, 74 services are currently registered â€“ covering all stages of gaining and holding Improving Quality in Physiological Services accreditation.

NHS England does not hold information on the number of services that have been allocated a date and are awaiting an assessment visit by United Kingdom Accreditation Service assessors, or the number of services that failed to gain accreditation after their initial assessment.

NHS England does not hold information on how many paediatric audiology services have reached the level required, using the Self-Assessment and Improvement Tool, to be eligible to apply for Improving Quality in Physiological Services accreditation.
