I do not know any GPs who want to see inappropriate use of the private sector. They will be doing the commissioning and the public will be able to see what they are doing. Should we not let them get on with it?

Andrew Lansley (Secretary of State, Health; South Cambridgeshire, Conservative)

My hon. Friend is absolutely right. I was very pleased to hear what was said by Dr Sam Barwell—I think her name is Barwell.

Sarah Wollaston (Totnes, Conservative)

Barrell.

Andrew Lansley (Secretary of State, Health; South Cambridgeshire, Conservative)

Barrell. One had only to listen to how Dr Sam Barrell and her colleagues in the Baywide clinical commissioning group in my hon. Friend's constituency are providing clinical leadership in south Devon and Torbay to be absolutely clear that the Bill is right to give them that responsibility and that they will use it extremely well.

They Work For You
